

Am care services

AM Care Services is an independent provider of specialist support for adults with complex learning, mental health and Autism related support needs.

About us

AM Care Services provides supported living accommodation and residential services. We are passionate about quality and we specialise in supporting people to achieve their full potential.

Mental health

We offer comprehensive rehabilitation and support, from forensic mental health services to services for people with mild or moderate mental health needs. Through self-development and tailored support, we help people to manage their mental health, improve their self-confidence and emotional well-being to maximise their independence.

We believe in the potential of everyone we support and enable them to work towards their goals, live more independently and take control of their lives. We listen to each person to understand what they would like to achieve in life. We then work closely with them, their family, circle of

support and other professionals to define goals and work together to achieve them.

Through our outcome focussed approach, we provide support that is designed around each person's individual needs.

Disabilities

We provide expert tailored support and care for people with a range of mild, moderate or severe learning or physical disabilities, complex needs or acquired brain injuries. We encourage and motivate people to do as much as they can for themselves by helping them to gain practical and cognitive skills through personalised care.

Housing and Accommodation

We offer a range of housing and accommodation that meets peoples' individual needs and naturally encourages independence.

We have a variety of accommodation, from shared houses, to larger purpose-built apartment buildings where people have their own flats with access to communal facilities.

Our properties are all located in residential areas, close to local amenities, leisure facilities and employment opportunities. Whatever the set-up, we provide a safe and homely environment, where personalised support is delivered to help you live as independently as possible.

Personalised Support

We provide a variety of services to help meet a range of unique support needs.

Everyone receives a personalised care and support plan, which they will have control of and develop with staff.

Where appropriate and when full consent has been given, families and loved ones can also be involved in developing and consenting to the support plan. The support plan is created using the principles of the relevant Outcomes Star model, which is recognised by the Department of Health, and charts progress in areas such as

managing mental health, enhancing living skills, building and maintaining social networks and maximising independence. By developing the plan together, we can deliver a holistic package of support which also improves physical health, emotional health and general well-being.

132 Rosebery Avenue

Shared SSH, 6 bedrooms – 3 en-suites, Kitchen/dining room and separate lounge, Utility and office space
